Welcome to Calculus!

Please take some time now to review basic concepts. I guarantee that a few hours reviewing and relearning algebra now will save you hundreds of hours of heartbreak later. Get help if you need it. There is no shame in not remembering math you learned in the past.

Homework Problems

Please do the following

- Make a short video introducing yourself to the class: Name, Major, Something awesome you want to share.
- Post your video to the Homework Solution Videos channel.
- Look up what group you are in.
- Go to your group channel and make a post saying hi to the group.
