

Calculus 1 - Homework 12

Professor:

Dr. Joanna Bieri
joanna_bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus1.joannabieri.com

Prepare for Class

Make sure you are MEMORIZING these rules. You will use them for the rest of your time in Calculus.

1. Watch Lectures:
 - The Product and Quotient Rules
 - Examples using the Product and Quotient Rules
2. Read Book:
 - 2.3 The product and quotient rules - especially read 2.3.1 which gives a real world way to think about what these rules mean.
3. Try Examples:
 - Activity 2.3.4 is a good example of an exam question.
4. Make a list of questions for your group and professor. You can post these questions to your group channel.
5. Start working on the homework problems.
6. Come get help if you need it!

Homework Problems

You should attempt all these problems before class, but we will work on them in class with our groups.

- ALL: 1-14
- Go back through your exam 1 and correct any problems that you got wrong or go back through any problems you didn't completely understand.

Hand In - Video Number 5

Due Monday 10/5 11:59pm

From this homework problems 10, 11, 12, 13, and 14 will be eligible for a homework video. Please make sure to sign up!
