

Calculus 1 - Homework 14

Professor:

Dr. Joanna Bieri
joanna_bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus1.joannabieri.com

Prepare for Class

1. Watch Lectures:
 - The Chain Rule
 - More examples with Chain Rule
2. Read Book:
 - 2.5 The Chain Rule
3. Try Examples:
 - Activity 2.5.3 and 2.5.4 are a good examples of exam questions. Make sure you are practicing TONS of derivatives. Time spent now getting good at this is a gift to future you!
4. Make a list of questions for your group and professor. You can post these questions to your group channel.
5. Start working on the homework problems.
6. Come get help if you need it!

Practice! Practice! Practice! The better you are at applying the derivative rules now, the easier the rest of class will be.

Homework Problems

You should attempt all these problems before class, but we will work on them in class with our groups.

- ALL: 1-11
- Do the worksheet problems

Hand In - Video Number 5

Due Monday 10/5 11:59pm

From this homework problems 8, 9, 10, and 11 and all the problems from the worksheet will be eligible for a homework video. Please make sure to sign up!
