

Calculus 1 - Homework 19

Professor:

Dr. Joanna Bieri
joanna.bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus1.joannabieri.com

Prepare for Class

1. Watch Lectures:
 - FIRST - Try the exploration worksheet. See if you can answer the questions before watching the lectures.
 - Video: Using derivatives to find maximum and minimum.
2. Read Book:
 - Chapter 3.1 Using derivatives to identify extreme values.
3. Try Examples:
 - Example 3.1.7 and 3.1.10 are good examples of exam questions.
4. Make a list of questions for your group and professor. You can post these questions to your group channel.
5. Start working on the homework problems.
6. Come get help if you need it!

Homework Problems

You should attempt all these problems before class, but we will work on them in class with our groups.

- Exercises 1-7

Hand In - Video Number 7**Due Monday 10/26 11:59pm**

Exercises 4, 5, 6, and 7 will be eligible for a homework video. Please make sure to sign up!

Your current grade in the class is available on Moodle. Make sure to check your grade!
