

Calculus 1 - Homework 22

Professor:

Dr. Joanna Bieri
joanna_bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus1.joannabieri.com

Prepare for Class

1. Watch Lectures:
 - Video: Applied Optimization - General Idea
 - Video: Applied Optimization - More examples
2. Read Book:
 - Chapter 3.4 Applied Optimization
3. Try Examples:
 - Activities 3.4.2, 3.4.3, 3.4.4, and 3.4.5 are good examples of exam questions.
4. Applied optimization takes a lot of practice... please practice!!!
5. Make a list of questions for your group and professor. You can post these questions to your group channel.
6. Start working on the homework problems.
7. Come get help if you need it!

Homework Problems

You should attempt all these problems before class, but we will work on them in class with our groups.

- Exercises 1-9 You seriously need to do ALL of these problems to have any hope of passing the exam next week!

Hand In - Video Number 8

Due Monday 11/2 11:59pm

Exercises 6, 7, 8, and 9 will be eligible for a homework video. Please make sure to sign up!
