

Calculus 1 - Homework 6

Professor:

Dr. Joanna Bieri
joanna.bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus1.joannabieri.com

Prepare for Class

1. Watch Lectures:

- Interpreting and Estimating the Derivative
- Example Spreadsheet for Estimating Derivative
- Example Problems for Interpreting the Derivative

2. Read Book:

- 1.5 Interpreting, estimating, and using the derivative

3. Try Examples:

- Activity 1.5.3 and 1.5.4 are both examples of good exam questions. Please try these!

4. Make a list of questions for your group and professor. You can post these questions to your group channel.

5. Come get help if you need it!

Homework Problems

You should attempt all these problems before class, but we will work on them in class with our groups.

- ALL: 1-8

Hand In - Video Number 3**Due Monday 9/14 11:59pm**

From this homework problems 5,6,7,8 will be eligible for a homework video. Please make sure to sign up!
