

Calculus 2 - Homework Day 1

Professor:

Dr. Joanna Bieri
joanna_bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus2.joannabieri.com

Homework Problems due Before Next Class

Homework will be assigned daily and is due before the next class. We will start the homework in class and I highly suggest that you finish it that same day. Most days there will be both WeBWorK problems and Exercises from the book or a worksheet. You are expected to hand in a scan of ONE hand written problem each day on Moodle. Sometimes the handwritten problem will be assigned other times it is your choice.

1. WeBWorK - no new assignment
2. Moodle - no new assignment

Prepare for Next Class

Each day you will be assigned work to do to prepare for the next class. This will include lecture videos, optional content, and practice problems. The lecture will not be repeated in class. You must watch the videos. Your goal in this preparation stage is to get a good foundation of understanding so that you are ready to work harder problems in class. This work is not handed in.

1. Watch Lecture Videos:
 - Review of Calculus 1 - General
 - Review of Calculus 1 - Important Integration Rules
2. Review Material as Needed:
 - You can look at my website: calculus1.joannabieri.com for videos or notes if you need a refresher.
 - You can read chapters 1-5.2 in our textbook and try some of the exercises.
3. Practice Problems:
 - Try the WeBWorK Review Calc I assignment.
 - Let me know if you have trouble logging in to WeBWorK.
4. Make a list of questions for your group and professor.

Other Notes:

One of the best ways to succeed in Calculus is to get lots of help! Here are some things you can start doing TODAY:

- Remind yourself daily that everyone struggles with learning new things. You can succeed in Calculus if you keep trying and don't give up.
- Form a study group and meet regularly with the people in our class.
- Go to drop in tutoring from 7-9pm in Appleton Hall Sunday-Thursday.
- Make time in your schedule where you will study Calculus - do not double book this time.
- Go to academic success and sign up for individual tutoring.
