

Calculus 2 - Homework Day 16

Professor:

Dr. Joanna Bieri
joanna.bieri@redlands.edu

Office Hours:

Check the class website for office hours: calculus2.joannabieri.com

Homework Problems due Before Next Class

1. WeBWorK - Section6.1
2. Book Problems - Do exercises 1-6 from section 6.1
3. Moodle - Please write up Book Problem number 5. Make sure to show all your steps and say in words WHY your steps make sense. It really does help on the exam if you are use to explaining things to your self in a language that you are more comfortable with. If you are more comfortable in a language other than English, just say that and write in your language of choice!

Prepare for Next Class:

1. Look for PRE CLASS material under Day 17
2. Make sure to do the You Try problems from the lecture video.
3. Make a list of questions for your group and professor.
4. Take the daily survey.

Other Notes:

Start making your “cheat sheet” for Exam 2. This should be one sheet of paper that has formulas and hints on it.
