

Differential Equations – Homework 17

Professor:

Dr. Joanna Bieri

joanna_bieri@redlands.edu

Homework 17

We are skipping forward to Chapter 7.1.

Directions: Do the following book problems

Chapter 7.1 Problems 3, 7, 8, 11, 13, 17, 23, 24, 28

Other Notes:

1. For problems 11, 17, 13, 23, 24 and 28 you are only being asked to look the transforms up on the Table of Laplace Transforms. You might have to use algebra to put things in a nice form and or adjust constants to make the transforms work.
